

This Enterprise Technical Support Policy ("Policy") is effective July 2, 2011, and applies on a global basis. It describes the Support Services we provide to business customers for Software covered under active Support Agreements. We reserve the right to amend this Policy periodically and will post updates at <http://www.symantec.com/business/products/policies/index.jsp> and <http://www.symantec.com/business/support>.

Scope: Symantec will deliver Support Services for your Software in accordance with the terms of this Policy, including the section captioned "Limitations" below. We will provide Support Services for Software when used in a Supported Configuration. Note that the provisions and definitions of your Support Agreement supersede any inconsistent terms in this Policy or in your License Agreement. You are entitled to receive Support Services during the term of your Support Agreement, based on the offering you purchased, and for Software installed at locations in which you are authorized to use such license in the country or countries for which you have purchased Support Services. Capitalized terms when used in this Policy are defined herein, or in your Support Agreement, License Agreement, or the Handbook.

Language Support: We primarily provide Support Services in English. Our worldwide support centers will use commercially reasonable efforts to provide language support during Regional Business Hours, based on available resources. Please refer to the Handbook for additional information.

Designated Contacts: We will provide Support Services to you through your Designated Contacts. Your Support Agreement will state the number of Designated Contacts you are entitled to register and use. If you wish to designate additional technical personnel as Designated Contacts, Symantec may charge you applicable fees. Your Designated Contacts will be responsible for (i) overseeing your request for assistance, and (ii) developing and deploying troubleshooting processes within your organization. Your Designated Contacts must be technically skilled and knowledgeable about the Software and the environment in which it is being used, in order to help resolve system issues and to assist Symantec in analyzing and resolving service requests; otherwise, our ability to provide Support Services to you may be impaired, and Symantec may request that you replace the Designated Contact.

Knowledge Sharing: You may use our on-line management tool MySupport at <https://mysupport.symantec.com/> to log, track, update, and close a Case online. Our then current support services handbook, published on or after the effective date of this Policy, ("Handbook") includes information to help you understand how we provide our Support Services to you. Our Handbook, along with certain reference guides and escalation processes, are located at <https://mysupport.symantec.com/>. Our on-line technical support knowledge base located at <http://www.symantec.com/business/theme.jsp?themeid=support-knowledgebase> includes support-related information that you can use to perform self-help. We also provide information through our community forums at <http://www.symantec.com/connect/forums>.

Case Management Activities: We will use commercially reasonable efforts to manage your Case and address your Problem according to our remote support performance targets given in our Handbook, based on the Severity Level and its complexity, and the support offering purchased. All case management targets and delivery timelines are goals and not commitments, and the actual timing may vary based on the support offering purchased and the country or site where your Software is deployed. You will be responsible for setting the initial Severity Level for your Problem based on the Severity Level definitions in the Handbook. If the seriousness of your Problem changes, we will discuss changing the Severity Level with you. You must provide us with timely responses and any information we may reasonably need to address your Problem. We will take reasonably sufficient steps in a number of ways to address your Problem. Refer to the Handbook for examples of these types of steps. In some cases, we may recommend that we remotely perform diagnostic and troubleshooting activities. To initiate such remote access, we will need your express consent.

Support Lifecycle: Symantec provides different levels of deliverables under your Support Agreement depending on where your Software is in its lifecycle. For more information on our product lifecycles and related Support Services deliverables during those lifecycles, please refer to our End of Life Policy - Business Products, posted at <http://www.symantec.com/business/products/policies/index.jsp>.

Acquired Product Lines: If we acquire or merge with another company there may be a transitional period following that acquisition where an acquired product line may have different support offerings, deliverables, pricing, or naming conventions than those described in this Policy, or such differences may continue on an ongoing basis. Please refer to your Support Agreement for a description of the deliverables and entitlements you will receive under the support offering you have purchased for those acquired products. Note that the term "Support Agreement" refers to your agreement covering support for the acquired products even if a company branded as "Symantec" is not a contracting party.
