

Norton Internet Security™ 2006 *Small Office Pack*

Essential protection from viruses, hackers, spyware, and spam

Symantec's Norton Internet Security 2006 Small Office Pack lets you quickly and easily safeguard your office computers. Its 5-user license is a convenient and cost-effective way to protect all your vital business information.

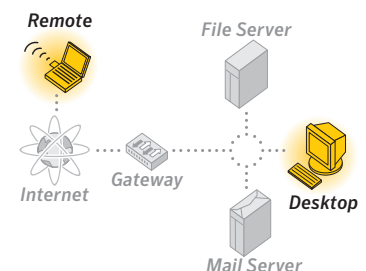

Delivers seamless online protection

Norton Internet Security 2006 is a comprehensive solution that makes online protection easy: Norton AntiVirus™, the world's most trusted antivirus solution,* removes viruses, worms, Trojan horses, and spyware automatically—without interrupting users' work. Norton™ Personal Firewall keeps hackers out and confidential data in. Norton AntiSpam™ filters out unwanted email. And Symantec's LiveUpdate™ technology keeps your defenses current by downloading protection updates automatically. Safeguard your online business activities with the comprehensive protection of Norton Internet Security 2006.

Norton Internet Security 2006 Features

- **NEW** Detects spyware and adware, automatically removing dangerous programs
- **NEW** Prevents spyware from changing your Web browsers' home pages
- **NEW** Makes it easy to find and fix Windows® security risks
- **NEW** Provides instant information about the status of your Norton programs
- Gives you a firewall, intrusion prevention, spam and content filtering, and privacy, virus, and spyware protection in one product
- Uses LiveUpdate to automatically download and install protection updates
- Automatically detects and removes viruses, worms, and Trojan horses, and blocks new fast-moving Internet worms
- Hides your PCs on the Internet so that hackers can't find them
- Automatically blocks suspicious incoming traffic with intrusion prevention technology
- Prevents confidential information from being sent out inadvertently in email, instant messages, Microsoft® Office attachments, and Web forms
- Filters unwanted email messages in any POP3-compliant email program
- Detects phishing email messages that link to fraudulent Web sites

* Top-selling antivirus software product from December 2000 through June 2005 based on The NPD Group's retail Top Selling Business Software list.
