

Norton SystemWorks™ 2006 Premier *Small Office Pack*

Powerful tools to solve PC problems and protect your business data

Symantec's Norton SystemWorks 2006 Premier Small Office Pack helps you save time and money by diagnosing, repairing, and maintaining your business computers yourself.

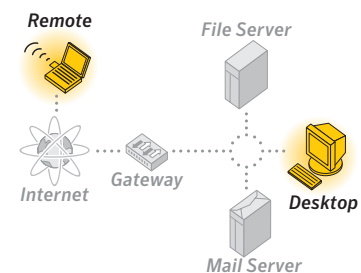

Backup, repair, and maintain your systems

Available for 5 users, it's a cost-effective problem-solver with multiple award-winning Symantec technologies in one solution: Norton AntiVirus™, the world's most trusted antivirus solution*, removes viruses, worms, and spyware automatically. Norton Utilities™ optimizes the performance of your computers, fixes Windows® system problems, erases confidential business information, and more. Norton GoBack™ lets you easily undo PC problems by rolling back a system to a previously healthy state. Norton Ghost™ provides easy backup and recovery for your vital business data. And One Button Checkup detects and repairs problems in a snap. Automate your PC health checks, fixes, and backups with Norton SystemWorks 2006 Premier from Symantec.

Norton SystemWorks 2006 Premier Features

- **NEW** Detects spyware and adware, automatically removing dangerous programs
- **NEW** Prevents spyware from changing your Web browsers' home pages
- **NEW** Alerts users to the installation of applications
- **NEW** Provides instant information about the status of your Norton programs
- **NEW** Automatically determines which drives need to be protected with backups, and which drive will best serve as the backup
- **NEW** "Back Up Now" button lets you instantly create a backup of an entire system
- Automatically removes viruses, worms, and Trojan horses
- Detects Windows and hard drive problems, and can fix many of them automatically
- Restores a disk drive to a previous healthy state after a system crash, failed software installation, user error, virus attack, or other problem
- Deletes temporary files, leftover files from Internet sessions, and other unneeded files that can jeopardize privacy, waste disk space, and slow down PC performance

* Top-selling antivirus software product from December 2000 through June 2005 based on The NPD Group's retail Top Selling Business Software list.

Norton SystemWorks 2006 Premier includes:

- Norton AntiVirus
- Norton Utilities
