

The primary language offered by Symantec Technical Support is English and our worldwide support centers are structured to provide local language support. Availability of local language support depends on the opening hours of our regional support centers. The main non- English languages in which we deliver support and the general hours of availability are as follows:

Region	Language	General Hours Of Availability
EMEA (Europe, Middle East & Africa)	French	9am - 5pm CET
	German	9am - 5pm CET
	Italian	9am - 5pm CET
	Spanish	9am - 5pm CET
The Americas (North America, South America, Canada, Hawaii & Alaska)	Brazilian Portuguese	9am - 6pm UTC -3
	Latin American Spanish	8am - 8pm UTC -3
	French	8am - 6pm UTC -3
APJ (Asia, Pacific Rim, Japan, Australia & New Zealand)	Japanese	8am - 6pm JST
	Cantonese	9am - 6pm CST
	Mandarin	9am - 6pm CST
	Korean	9am - 6pm KST

We provide support in the above and more languages on a commercially reasonable basis*. For after-hour support, callers with an Essential Support or Business Critical Services contract will be directed to one of our worldwide support centers in EMEA, The Americas or APJ, thus providing “follow-the-sun” support. Please note that after-hours support is provided in English and local language where available.

* We make commercially reasonable efforts to accommodate local language requirements when possible during the normal business hours of our regional support centers; however some products may only be supported in English.
