

Registering for a Free Symantec eLibrary Subscription

Below are some important notes and step-by-step instructions about how to register for a free Symantec eLibrary subscription.

- **Please Note** - To access the Symantec eLibrary you must have:
 - 1) An active Symantec Education account; and
 - 2) A subscription to the Symantec eLibrary
- Access the Symantec eLibrary page below to register for a free subscription:
Symantec eLibrary - <https://www.symantec.com/content/elibrary/selibrary.html>
- At the Symantec eLibrary site, click on the **Create Account** button to self-register for a free subscription if you do not already have one – see the screenshot below.
- Click the **Sign In** button **only** if you have already registered for a subscription. Clicking the **Sign In** button will enable you to log in to your Symantec Education account and access the eLibrary as a subscriber.

1. After clicking the **Create Account** button to self-register for a Symantec eLibrary subscription, the Symantec Education login page opens. If you have a Symantec Education account, enter your login credentials.

If you don't have a Symantec Education account, click the **New User?** link to open the New User Registration page (see the screenshot next page). Enter all the required information in the New User Registration page and then click the **Save** button at the bottom of the page. You'll automatically be logged in to your new account after saving your registration information.

(If you receive an error message about 'duplicate usernames' after entering the information to create a new Symantec Education account, the error means that you already have a Symantec Education account. Contact the Symantec Education Global user support team at sesystems@symantec.com to get the login credentials to your account.)

- If you click on the **Go to My Enrollments** button on the Order Confirmation page, you'll be directed to your My Enrollments page. Click on the **Launch** link to the right of the Symantec eLibrary item to launch it.

My Enrollments

These are courses for which you are currently enrolled. You can launch web based courses by clicking the launch icon under the "Actions" column. Please Note: eLearning courses are best viewed with Internet Explorer versions 5.5 - 7.0, and all pop-up blockers must be disabled to successfully view the course. If you are unable to find your course in your 'My Enrollments' page, you can also look for the course in your 'My Transcripts' page.
