**Q: What is Symantec Premium Support?**  
A: Symantec Premium Support offers Symantec’s highest levels of responsiveness and business support with trusted advisor(s) for accountability, priority support access, and risk reduction/mitigation.

Premium Support has two offerings available—Customer Success Manager and Technical Account Manager—to fit the needs of different business and overall requirements. These offerings can be purchased stand alone, or can be combined in various ways to produce a richer, more comprehensive experience.

**Q: Why is Premium Support Important?**  
A: Securing your enterprise in today’s environment requires access to specialized expertise to help maximize your security profile, prevent adverse events, and minimize the consequences should issues occur. Maintain the balance between security and business requirements with Premium Support.

**Q: Who can benefit most from Premium Support?**  
A: Premium Support is designed to simplify the delivery of state-of-the-art services and solutions for Symantec enterprise customers:
- With unique or complicated environments
- With zero tolerance for downtime
- Who value trusted advisors to help minimize the risk of crippling financial and corporate repercussions
- Who want to get the most from their Symantec investment

**Q: What are the key benefits of Symantec Premium Support?**  
A: Premium Support helps you secure your enterprise in today’s challenging threat environment, providing:
- Solutions customized to your business goals
- Direct access to experienced subject matter experts
- Accelerated response times
- Security and Threat notifications
- Proactive solution analysis and optimization
- Maximize return on investment

**Q: What Symantec products are covered by Premium Support?**

<td>Access to Technical Webinars</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

*Essential Support (prerequisite for all Premium Support offerings).

Q: What is a Premium Support CSM?
A: Customer Success Manager. Partnership with a trusted advisor, a single point of contact who understands your environment and business goals. Fulfills frequent account and case management reviews to drive progress against key performance indicators. The Customer Success Manager (CSM) shares Symantec and industry best practices and advises on solution and feature adoption and performance. Priority access to advanced support engineers with expedited response times is included for the entire Symantec solution portfolio.

Q: What is a Premium Support TAM?
A: Technical Account Manager. Partnership with a named advocate, a support expert focused on your solution specific goals. Access to a designated support engineer with advanced technical expertise for one Symantec product family who directly manages your cases. Priority access to seasoned support engineers after regional business hours. Recurring summary reports are provided on cases, issues and industry trends. Where applicable, Symantec diagnostic tools (SymDIAG, SGARs, etc.) are employed to optimize solution effectiveness.

Q: Will Symantec continue to honor legacy support entitlements?
A: All existing support entitlements will be honored; all customers will continue to receive their currently contracted level of support and will be able to renew legacy offerings as required by contract. At the end of the required renewal period, customers will be migrated to the new Premium Support offerings.

Q: Where can I get more information?
A: Please visit https://www.symantec.com/services/premium-support and contact your Symantec sales account manager for more information about Premium Support.

About Symantec
Symantec Corporation (NASDAQ: SYMC), the world’s leading cyber security company, helps organizations, governments and people secure their most important data wherever it lives. Organizations across the world look to Symantec for strategic, integrated solutions to defend against sophisticated attacks across endpoints, cloud and infrastructure. Likewise, a global community of more than 50 million people and families rely on Symantec’s Norton and Lifelock product suites to protect their digital lives at home and across their devices. Symantec operates one of the world’s largest civilian intelligence networks, allowing it to see and protect against the most advanced threats. For additional information, please visit www.symantec.com or connect with us on Facebook, Twitter, and LinkedIn.
