

# Over Half a Billion Personal Information Records Stolen or Lost in 2015

and more companies than ever not reporting the full extent of their data breaches

of breaches included medical records

The largest number of breaches took place within the Health Services sub-sector, which actually comprised 39 percent of all breaches in the year. This comes as no surprise, given the strict rules within the healthcare industry regarding reporting of data breaches.

120 Incidents

4 Million Identities Exposed

## 2015 Stats

### Total Reported Identities Exposed

numbers in millions

2015 **429** +23%

2014 **348** -37%

2013 **552**

Most of an iceberg is submerged underwater, hiding a great ice mass. The number of reported identities exposed in data breaches are just the tip of the iceberg. What remains hidden?

### REPORTED IDENTITIES EXPOSED

**78 million** patient records were exposed at Anthem

**22 million** personal records were exposed at Office of Personnel Management

These numbers are likely higher, as many companies are choosing not to reveal the full extent of their data breaches.

### UNREPORTED IDENTITIES EXPOSED

Despite companies' choice not to report the true number of records exposed, hundreds of millions more people may have been compromised.
